Lucknow, Uttar Pradesh - 226101, India

OBJECTIVE

My main objective is to enhance my skills and knowledge. I have expertise in Data Structures and Algorithms, Problem-solving, C++, PHP, HTML, and CSS. My goal is to use these skills innovatively for the growth of the organization. I am also committed to expanding my knowledge with the latest technologies.

EDUCATION

- **Galgotias University** 2021 - 2025
B. Tech(CSE)
 - GPA: 9.27
- **St. Clare's Convent Secondary School** 2019 - 2020
Intermediate
 - Grade: 72.2%
- **St. Clare's Convent Secondary School** 2017 - 2018
High School
 - Grade: 86%

INTERNSHIP

- **Networking Cloud Virtual** [\[Link\]](#) September - November 2023
Intern
 - Gained comprehensive knowledge of networking fundamentals, including network protocols, security, and architecture.
 - Developed an understanding of cloud networking principles and how cloud platforms manage and secure data flow.
 - Completed coursework focusing on network security, ensuring data integrity and protection in cloud systems.

PROJECTS

- **Home Automation System**
Tools : Arduino UNO, Blynk IOT, Embedded C
 - Made a fully function home system under the guidance
 - This project was integrated on the Arduino and some other appliances.
 - The project was controlled with the help of the app called Blynk IOT.
- **Todo list**
Tools : HTML, CSS, PHP, and MYSQL
 - This project is made with the help of HTML, CSS, PHP, and MYSQL.
 - In this project I have used XAMPP for server
 - In this PHP is embedded in HTML and MySql is used for the connection with database.

SKILLS

- **Programming Languages:** C++, PHP, HTML, and CSS.
- **Database:** MySQL
- **Courses:** Operating Systems, Networking, Data Structures and Algorithms, Object-Oriented Programming.

CERTIFICATIONS

- **Mastering Data Structures and Algorithms** | [Link](#) March - June 2024
- **AWS Academy Cloud Foundations** | [Link](#) July - September 2022

ACHIEVEMENTS

- **Ranked 22nd at the university level** in data structures and algorithms on GeeksforGeeks ,reflecting problem-solving skills and technical proficiency.
- **Successfully solved 200+ coding problem** on GeeksforGeeks ,showcasing problem-solving abilities and expertise in algorithms.
